WHY SILICOM?

- **Established Industry Presence** - 30+ years serving the Indian electronics industry with strong relationships across manufacturing and engineering organizations.
- **Access to Electronics Manufacturing Customers** - Direct engagement with EMS companies, automotive electronics suppliers, telecom equipment manufacturers, and industrial electronics firms.
- **Presence in Key Manufacturing Clusters** - Active sales coverage across the North India electronics manufacturing ecosystem including NCR, Baddi, Haridwar, Roorkee and surrounding industrial regions.
- **Experience Supporting Production Environments** - Portfolio includes production testing systems used in transformer manufacturing, cable harness testing and electronics assembly environments.
- **Technical Sales & Application Support** - Dedicated technical sales engineers providing product demonstrations, application guidance and customer support.

WHAT WE OFFER

Global Brand Representation

Silicom represents leading global brands. With strong relationships across electronics manufacturing companies, engineering teams and research institutions, we help international manufacturers establish and expand their presence in the Indian electronics market.

Dedicated Technical Support

Our India-based technical sales team supports partners through product demonstrations, application guidance and engagement with engineering and production teams, enabling effective adoption of new technologies across R&D labs and manufacturing environments.

Market Development & Industry Access

Silicom works with electronics manufacturing services companies, automotive electronics suppliers, telecom equipment manufacturers, power electronics companies and research institutions, supporting both engineering development and production testing applications.

Institutional & Tender Market Access

Silicom has strong experience working with government institutions, PSUs and research laboratories through tender-based procurement. We are GeM assessed and have been active on the Government e-Marketplace platform since its inception.
